

# Grow quality Australian pastures with Barmac.

## We have your pastures covered.

When it comes to growing Australian pastures, Barmac has you covered.

Barmac provides a range of granular starter and top dress fertiliser blend options for your temperate, tropical and native grass pasture needs. Whatever the need, Barmac has the nutrition solution you can rely on.

Barmac also provide a range of specialty and generic herbicide, insecticide and fungicide options to economically control a range of pests in your pastures.

Transact

- 500 g/L Iprodione
- Group 2 Fungicide
- Controls Leaf Spot in lucerne (WHP 7 days)
- Available in 5L pack size

Chlorpyrifos 500

- 500 g/L Chlorpyrifos
- Group 1B insecticide
- Controls Cereal Curculio, Cutworm, Armyworm, Webworm, Locust, Blue Oat Mite, Red Legged Earth Mite, Lucerne Flea in pastures (WHP 10 days)
- Available in 20 L pack size

Diazinon

- 800 g/L diazinon
- Group 1B Insecticide
- Controls Webworm, Locust, Armyworm, Cutworm, Lucerne Jassid, Lucerne Aphid, Ants in pastures (WHP grazing 2 days, hay 14 days)
- Available in 20 L pack size

Prop 500

- 500 g/L Propiconazole
- Group 3 Fungicide
- Controls Stem Rust and Blind Seed Disease in perennial ryegrass pasture (WHP 4 weeks)
- Available in 20 L pack size

2,4-D Amine 625 Low Odour

- 625 g/L 2,4-D
- Group I Herbicide
- Controls broadleaf weeds in grass pastures (WHP 7 days)
- Available in 20 L pack size

Ethos

- 500 g/L Ethofumesate
- Group J Selective Herbicide
- Controls Barley Grass, Winter Grass, Brome Grass, Cleavers, Shepherds Purse, Chickweed, Storksbill in ryegrass pastures (WHP 7 days)
- Available in 20 L pack size

Double Time

- 80 g/L Dicamba, 340 g/L MCPA
- Group I Herbicide
- Controls many broadleaf weeds in grass pastures (WHP 7 days)
- Available in 20 L pack size

Eraze Bi-Aquatic Herbicide

- 360 and 510 g/L glyphosate
- Group M Herbicide
- Controls many grasses and broadleaf weeds in pastures (WHP N/A)
- 20 L pack size

Pronamide

- 500 g/L propyzamide
- Group D Selective Herbicide
- Controls many grasses and certain broadleaf weeds in lucerne pastures (WHP 25 days)
- 5L, 20 L pack size

Bromoxynil MCPA

- 200 g/L Bromoxynil, 200 g/L MCPA
- Group CI Herbicide
- Control of broadleaf weeds in grass pastures (WHP 8 weeks)
- Available in 20 L pack size

AMOS Spray Grade Ammonium Sulphate

- 980 g/kg Ammonium Sulphate (Spray Grade)
- Acidifying biodegradable spray adjuvant for aiding herbicide compatibility and performance
- Improves glyphosate based herbicide compatibility with flowable herbicides
- Available in 25kg pack size

Specialist Liquid Foliar Fertiliser

- Nurture N 30-0-0 (controlled release nitrogen). Apply during autumn/ winter with GA applications or whenever a boost is required
- Nurture N 12-0-10+B (controlled release nitrogen with K and 0.5% B Apply to lucerne or other pastures during autumn/winter.
- Available in 20L, 200L and 1000L pack sizes

Granular Pasture Fertiliser Blends

- Sweet planting and top dress blends contain multiple phosphate technology. NutriSmart planting and top dress blends are available.
- Design your own custom pasture granular blend utilising Guano, NutriSmart, Controlled Release and traditional fertilisers.
