

Grow quality Australian sugarcane with Barmac.

We have your sugarcane covered.

When it comes to growing Australian sugarcane, Barmac has you covered.

Barmac provides a wide range of granular fertiliser blends in controlled release and compound form for planting, side dressing or top dressing your cane. Barmac also supplies a specialist controlled release liquid nitrogen, specifically designed for foliar uptake, providing a prolonged nitrogen release pattern in cane. Whatever the need, Barmac has the nutrition solution you can rely on.

Barmac also provide a range of specialty and generic herbicide, insecticide and fungicide options to economically control a range of pests and weeds in your sugarcane crop.
