KEEP OUT OF REACH OF CHILDREN READ SAFETY DIRECTIONS BEFORE OPENING OR USING

ANALYSIS (% w/v):

20% Silica 8% Potassium

**PRODUCT CHARACTERISTICS:** 

Colour: Clear SG: 1.25

Barmac ABN 21 009 674 953 A division of Amgrow 82 Christensen Road. Stapylton QLD 4207 TEL: (07) 3802 5050 www.barmac.com.au

## NutraFeed

Liquid Fertiliser

## Liquid Silica

Silica is a high analysis liquid silica/ potassium fertiliser designed to increase crop pest resistance and reduce evaporation losses from plants and produce. Suitable for soil application to a wide range of horticultural and broad acre crops.

## **Silica**

## **Directions for use**

Suitable for use via fertigation.

| Juliable for use via fertigation.                        |   |  |
|--|---|--|
| Crop   | Ferigation<br>/ Soil (L/ha)<br>Dilution | Comments   |
| Berry fruits   | 5-7                                     | Apply as required at fortnightly intervals to enhance crop tolerance to water stress, disease and insect resistance  |
| Broadacre (cotton<br>beans, chickpea)                    | 3-5                                     | Apply in furrow at planting or through irrigation during crop growth at fortnightly intervals to enhance crop tolerance to water stress, disease and insect resistance |
| Citrus   | 8-10                                    | Apply as required at fortnightly intervals to enhance crop tolerance to water stress, disease and insect resistance  |
| Cucurbits  | 5-7                                     |  |
| Hydroponics  | 1:400                                   | Inject from a separate tank with no other fertiliser at a dilution of 1:400 (50 ppm silica) to enhance crop tolerance to water stress, disease and insect resistance   |
| Nursery/<br>Ornamental                                   | 1:400                                   | Apply as a media/soil drench at 1:400 dilution to enhance crop tolerance to water stress, disease and insect resistance  |
| Pomefruit /<br>Stonefruit                                | 8-10                                    | Apply as required at fortnightly intervals to enhance crop<br>tolerance to water stress, disease and insect resistance   |
| Potato   | 5-7                                     |  |
| Tomato /<br>Capsicum                                     | 5-7                                     |  |
| Tree Nut Orchards  | 8-10                                    |  |
| Tropical Fruit<br>(avocado, mango,<br>banana, pines etc) | 8-10                                    |  |

| Vegetables /<br>Brassica | 5-7 | Apply as required at fortnightly intervals to enhance crop tolerance to water stress, disease and insect resistance |
|--------------------------|-----|---|
| Vines/Grapes             | 5-7 |   |

CONDITIONS OF SALE - The suggested rates of application are designed for typical use conditions and should be used as a guide only. Because climatic and soil conditions, application methods, irrigation and agricultural practices are beyond the control of Barmac and cannot be foreseen.
