Scuttle Roach Gel

APPLICATION RESTRAINTS

- DO NOT place gel in areas that are regularly washed as this will remove bait
- DO NOT use in areas accessible to children and pets
- DO NOT use near open food and food contact surfaces
- DO NOT use this product on or around electrical equipment due to the possibility of electrical shock
- DO NOT apply gel to areas which have been recently sprayed with insecticides, or spray insecticides over gel placements, as this may cause the gel to become repellent
- DO NOT apply to surfaces where the temperature exceeds 54° C

DIRECTIONS FOR USE:

COCKROACH SPECIES	APPLICATION RATE (g/m ² infested surface area)	APPLICATION METHOD	CRITICAL COMMENTS
German	0.25 – 0.50	Small Spots	Use the lower application rate for low to moderate
Large, such as Australian, American, Smoky brown or Oriental	0.5 – 1.0	Large Spots	infestations and the higher rate for more severe infestations
