

Product Name: BARMAC CHLORPYRIFOS G GRANULAR INSECTICIDE
APVMA Approval No: 49666/121137

Label Name:	BARMAC CHLORPYRIFOS G GRANULAR INSECTICIDE
-------------	--

Signal Headings:	CAUTION KEEP OUT OF REACH OF CHILDREN READ SAFETY DIRECTIONS BEFORE OPENING OR USING
------------------	--

Constituent Statements:	ACTIVE CONSTITUENT: 50 g/kg CHLORPYRIFOS (An Anticholinesterase Compound)
-------------------------	--

Mode of Action:	GROUP 1B INSECTICIDE
-----------------	-----------------------------

Statement of Claims:	For the control of Argentine Stem Weevils, Ants and Beetles in commercial turf, and other outdoor areas as per Directions for Use THIS PRODUCTS IS TOO HAZARDOUS FOR USE BY HOUSEHOLDERS. DO NOT USE THIS PRODUCT IN OR AROUND THE HOME.
----------------------	--

Net Contents:	10kg 15kg 1kg 20kg 25kg 2kg 3kg 4kg 500g
---------------	--

Restrains:	RESTRAINTS DO NOT apply inside houses or other buildings.
------------	--

Directions for Use:	This section contains file attachment.
---------------------	--

Other Limitations:	
Withholding Periods:	
Trade Advice:	
General Instructions:	<p>GENERAL INSTRUCTIONS HOW TO PREPARE This product is ready to use and needs no further preparation. The product is suitable for application by sprinkling the granules over the area to be treated or by using a fertilizer spreader suitable for granular fertilizers. These spreaders need to be correctly calibrated before use. When applying the product ensure the amount of granules used corresponds to the area to be treated. DO NOT mix this product with fertilizers or any other product.</p>
Resistance Warning:	<p>INSECTICIDE RESISTANCE WARNING GROUP 1B INSECTICIDE Barmac Chlorpyrifos G Granular Insecticide is an acetyl choline esterase inhibitor. For insecticide resistance management Barmac Chlorpyrifos G Granular Insecticide is a Group 1B insecticide. Some naturally occurring individual insects resistant to Barmac Chlorpyrifos G Granular Insecticide and other Group 1B insecticides may exist through normal genetic variability in any insect population. The resistant insects will not be controlled by Barmac Chlorpyrifos G Granular Insecticide and other Group 1B insecticides, thus resulting in reduction on efficacy and possible yield loss. Since the occurrence of resistant insects is difficult to detect prior to use, Amgrow Pty Ltd accepts no liability for any losses that may result from the failure of and other Group 1B insecticides to control resistant insects.</p>
Precautions:	<p>PRECAUTIONS DO NOT heap granules. These granules may kill birds if ingested. DO NOT feed granules or otherwise expose to wild or domestic birds. DO NOT feed treated grass clippings or other plant foliage to poultry, other birds or animals. DO NOT allow chemical containers or granules to get into drains, sewers, streams or ponds</p>
Protections:	<p>PROTECTION OF LIVESTOCK Do not graze treated turf or feed turf clippings from the treated area to poultry or livestock.</p> <p>PROTECTION OF WILDLIFE, FISH, CRUSTACEA AND ENVIRONMENT HIGHLY TOXIC TO BIRDS AND REPTILES. VERY HIGHLY TOXIC TO FISH AND AQUATIC INVERTEBRATES. Do not contaminate streams, rivers or waterways with the chemical or used container. Dangerous to bees. Do not apply near any plants in flower while bees are foraging. Do not apply if heavy rains or storms that are likely to cause surface runoff are forecast in the immediate area within two days of application.</p>
Storage and Disposal:	<p>STORAGE AND DISPOSAL Store in the closed original container in a well-ventilated area, as cool as possible. DO NOT store for prolonged periods in direct sunlight. Store in a locked room or place away from children, animals, foods, feedstuffs, seed and fertilizers. Triple-rinse containers before disposal. Add rinsings to spray tank. Do not dispose of undiluted chemicals on site. If recycling, replace cap and return clean containers to recycler</p>

or designated collection point. If not recycling, break, crush, or puncture and deliver empty packaging to an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500 mm below the surface in a disposal pit specifically marked and set up for this purpose, clear of waterways, desirable vegetation and tree roots, in compliance with relevant local, state or territory government regulations. Do not burn empty containers or product.

Safety Directions:

SAFETY DIRECTIONS

Harmful if swallowed. May irritate the eyes and skin. Avoid contact with the eyes and skin. Repeated minor exposure may have a cumulative poisoning effect. Do not inhale dust. When using the product wear rubber gloves. Wash hands after use. After each day's use wash gloves.

First Aid Instructions:

FIRST AID

If poisoning occurs, contact doctor or Poisons Information Centre. Phone Australia 131126.

First Aid Warnings:

DIRECTIONS FOR USE

SITUATION	INSECT	RATE	CRITICAL COMMENTS
