TOMCAT - Mouse Attractant Gel

TOMCAT Mouse Attractant Gel

Rat and Mouse Attractant

TOMCAT Mouse Attractant Gel

Rodents can't resist this non-toxic attractant. Even the most fussy rodents will have a hard time resisting TOMCAT Mouse Attractant Gel.

Developed by the same experts that formulate the highly effective Tomcat baits, TOMCAT Mouse Attractant Gel is the first and only attractant specifically developed for rodents.

It is a non-toxic and hypoallergenic formulation, and is especially useful in situations where attractants, such as peanut butter, are prohibited.

TOMCAT Mouse Attractant Gel can easily be dispensed on any type of mouse trap or bait using the conveniently-sized squeeze bottle with nozzle. This water soluble attractant won't stain carpet or clothing.

TOMCAT Mouse Attractant Gel Benefits

- Quickly attracts rodents to baits and traps
- Enhances effectiveness of mechanical traps
- Attracts both mice and rats
- Pre-Mixed and ready-to-use
- Water soluble; won't stain clothing/carpets

PACK SIZES

Available in 60ml bottle.

APPLICATION

Dispense the gel as a smear or large drop onto baits and traps.
