

Per new APVMA requirements, if any of these provisions conflict with any statement or language on the existing product label, these provisions shall prevail and shall supersede conflicting label language.

DO NOT place bait stations outdoors for control of mice.

DO NOT use in areas accessible to non-target animals, pets or children unless secured in a tamper resistant bait station.

DO NOT place bait outdoors unless it is secured in a tamper-resistant and weather-resistant bait station which is secured in place.

DO NOT place bait stations more than 2 meters from buildings.

DO NOT apply this product directly into burrows.

DO NOT use the product continuously for more than 35 days without an evaluation of the state of the infestation and of the efficacy of the treatment.

Hazardous to wildlife. Search for and dispose of dead rodents and slugs/snails in the infested area at each visit to prevent secondary poisoning. In case slugs/snails are present, move bait station to another location within the rodent infested site, away from slugs/snails. Dispose of slugs/snails, dead rodents and uneaten bait in compliance with local, state or territory government regulations.

When using the product wear disposable gloves. During cleanup and disposal operations of bait and bait stations, wear disposable gloves. Wear disposable gloves when handling rodent carcasses. Wash clothes after performing re-handling activities.
