DIRECTIONS FOR USE

RESTRAINTS:

DO NOT allow spray to contact crop plants.

DO NOT apply if rain is likely within 2 hours of treatment

DO NOT spray onto rubber.

One litre of prepared spray covers approximately 13 square metres.

SITUATION	WEEDS CONTROLLED	
Commercial, Industrial and Public Service Areas, Agricultural buildings and other farm situations.	Prince of Wales Feather Scarlet Pimpernel Volunteer Oats Cobblers Pegs Wild Turnip Shepherd's Purse Chickweed Fat Hen	<i>Amaranthus powellii</i> <i>Anagallis arvensis</i> <i>Avena sativa</i> <i>Bidens pilosa</i> <i>Brassica rapa ssp. sylvestris</i> <i>Capsella bursa-pastoris</i> <i>Cerastium fontanum ssp. trivale</i> <i>Chenopodium album</i>
For suppression of established weeds and perennial species on paths, patios, pavers and concrete.	Couch Grass Summer Grass Crab Grass Willow Herb Storksbill Pinkweed Toad Grass	<i>Cynodon dactylon</i> <i>Digitaria ciliaris</i> <i>Digitaria sanguinalis</i> <i>Epilobium billardierianum</i> <i>Erodium moschatum</i> <i>Fumaria muralis</i> <i>Juncus bufonius</i>

MIXING RATE	CRITICAL COMMENTS
200 mL/L	<p>Ensure spray contacts all target area and that all weed foliage is covered. DO NOT apply more than 2 applications to the treated area, per 12 months.</p> <p>Control: Apply at early vegetative stage of weeds. Best results are obtained at 2-4 true leaf stage when weed canopy is less than 15 cm in height.</p> <p>Suppression: Established weeds may require more than one application. Repeats spray after 7-10 days if required.</p> <p>Perennial weeds and grasses may only be suppressed and not fully controlled and will require repeated sprays to deter re-growth. Apply preferably during Spring and late Autumn when weeds are young, actively growing and weather is calm. Spray over all weed foliage to ensure full foliage penetration and coverage. Partial foliage penetration or coverage will result in partial control. Best results achieved in warm sunny conditions.</p> <p>Because of the OH&S risks with hand held application, DO NOT apply spray using hand held equipment. Apply with a boom spray ONLY.</p>

GENERAL INSTRUCTIONS

Amgrow Organix Weed Blitz Concentrate Herbicide is a natural contact weed control that acts on the foliage, causing it to quickly dehydrate and collapse. Results often can be seen within hours of application. Amgrow Organix Weed Blitz Concentrate Herbicide will control many weed species and is non-selective.

The natural composition of Amgrow Organix Weed Blitz Concentrate Herbicide may require repeat applications to control some difficult species. Cultivating the dehydrated weeds will act as a compost adding valuable nutrients to your soil.

MIXING

Thorough clean out spray container with clean water. Use correct measuring device and do not mix more than is needed. To prevent foaming and ensure adequate mixing, add part of water to spray tank, then Amgrow Organix Weed Blitz Concentrate Herbicide, mix and add remaining water. Agitate whilst mixing and applying.

APPLICATION

Ensure that all weed foliage is totally covered with spray as the product is a contact spray only. Partial coverage will give partial control. Use a foaming nozzle or spraying tips TG2 or TG3 for best results. Otherwise, use a flat fan nozzle and coarse droplets. Optimum application volumes are related to weed maturity and density. A water volume of 700 L/ha is recommended.

DO NOT spray on to rubber. Avoid area until dry.

Amgrow Weed Blitz Concentrate Herbicide is not known to cause staining on hard surfaces, but it is advisable to test a small area prior to further application.

DO NOT allow entry into treated areas until spray has dried, unless wearing cotton overalls buttoned to the neck and wrist (or equivalent clothing), chemical resistant gloves and impervious footwear.

Clothing must be laundered after each day's use.

DO NOT apply by knapsack or hand held application equipment.

PROTECTION OF CROPS, NATIVE AND OTHER NON-TARGET PLANTS

DO NOT apply under weather conditions, or from spraying equipment, that may cause spray to drift onto nearby areas, including susceptible plants/crops, cropping lands or pastures, streams/rivers, wetlands or watercourses.

The use of this product may temporarily affect earthworm populations in the treated areas. Field experience shows that this effect is transient and the earthworm population recovers.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND THE ENVIRONMENT

DO NOT contaminate streams, rivers or waterways with the chemical or used containers. DO NOT apply Amgrow Organix Weed Blitz Concentrate Herbicide if water bodies, water courses, or wetlands are within 30m down-wind of the application area.

STORAGE AND DISPOSAL

Store in closed, original container in a cool, dry place out of reach of children.

DO NOT store in direct sunlight. Triple rinse containers before disposal.

Add rinsings to spray tank. DO NOT dispose of undiluted chemicals on-site.

If recycling, replace cap and return clean containers to recycler of designed collection point.

If not recycling, break, crush or puncture and deliver empty packaging to an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500mm below the surface in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots, in compliance with relevant Local, State or Territory government regulations. DO NOT burn empty containers or product.

SAFETY DIRECTIONS

Will irritate the nose, throat and skin. Will damage the eyes. Avoid contact with eyes and skin. DO NOT inhale vapour or spray mist. If product on skin, immediately wash with soap and water. If product in eyes, wash it out immediately with water. Wash hands after use. When opening the container and preparing spray, wear cotton overalls over normal clothing, buttoned to the neck and wrist and a washable hat, elbow-length PVC gloves, goggles and a half-face respirator. When using the prepared spray, wear cotton overalls over normal clothing, buttoned to the neck and wrist and a washable hat, elbow-length PVC gloves. After each day's use, wash gloves, goggles, and respirator and if rubber wash with detergent and warm water.

FIRST AID

If poisoning occurs, contact a doctor, or Poisons Information Centre. Phone Australia 131126. If swallowed, do NOT induce vomiting. Give a glass of water.

MATERIAL SAFETY DATA SHEET

Additional information is listed in the Material Safety Data Sheet (MSDS) which can be obtained from the supplier.
