PRODUCT INFORMATION SHEET

Maxwet

Active Constituents: 370g/L nonyl phenol ethylene oxide condensate

A non-ionic wetter-spreader adjuvant for use with pesticide sprays in turf situations.

Benefits:

- Contains a premium non-ionic wetting agent for superior wetting/spreading performance when used with a wide range of chemicals and fertilisers
- Spreads the spray solution evenly over the leaf surface to provide better results
- Increases plant uptake of systemic herbicides, insecticides and foliar nutrient sprays
- Many pesticide labels recommend the use of a non-ionic wetting agent to improve performance

Product Characteristics:

Colour	Specific Gravity
Blue Liquid	1.03

Pack Size:

Available in 500mL and 5L packs

Directions for Application (Refer to product label for more detailed instructions)

SITUATION		RATE PER 100L OF SPRAY			CRITICAL COMMENTS
Turf	Fungicides, Insecticides & Miticides	As emulsifiable concentrates	Low volume	10mL 20mL	Mix pesticide according to label and dilute to final volume
		As wettable powders	Low volume	20mL 40mL	
	Herbicides	For selective use	Low volume	60-70mL 120-140mL	Add appropriate volume of Maxwet to the full spray tank

NOTE: Do not foliar apply during the heat of the day (> 25 DegC) when evaporation rates are at their highest. It is recommended that when foliar applying to a crop or area for the first time in combination with other chemicals, a small test area should be sprayed and observed for phytotoxicity prior to the total spray. Foliar spraying is recommended during early morning or late afternoon. Use the minimum foliar application rate on young or sensitive crops. Applying additional products in the same tank mix increases the phytotoxic risk to crops. Because climatic and soil conditions, application methods, irrigation and agricultural practices are beyond the control of Barmac and cannot be foreseen, Barmac accepts no responsibility whatsoever for any commercial damage, loss or other result following the use of this product whether used in accordance with directions or not, subject to any overriding statutory provision and provided that such liability under those provisions shall be limited to the replacement of the goods as supplied or the rendering again of the services that are provided. The buyer accepts and uses this product subject to these conditions.
